

Lick of the Week #1

Welcome to the fourth year of **Lick of the Week**! Here's a funky **Jerry Reed**-style Tele lick to get things going.

In licks like this, Jerry played the downstrokes with his thumb (p), and the upstrokes with his index (i) and middle (m) fingers together. Keep your 1st finger anchored at the 3rd string, 5th fret- the whole sequence is played in 5th position. That's a half-tone bend at the beginning of each phrase.

You can hear some of Jerry's funky Telecaster pickin in this video:

<http://www.youtube.com/watch?v=nIm3Et0Kynw>

I used my Fender Telecaster, with a little compression from an Aphex Punch Factory pedal.

Enjoy!

A handwritten signature in black ink that reads "Craig". The letters are cursive and slightly slanted to the right.

P.S. Remember, the first three years of **Lick of the Week** are available as downloads from www.craigdobbins.com.
